CHEDRO V conducts ISA Coaching Workshop

The presentation of outputs was facilitated by the CHEDRO V Quality Assurance Team (left) The ISA task force which consists of faculty members from delivery units, together with VPAF, VPRE and VPAA, successfully finished the ISA Coaching Workshop (right)

The Commission on Higher Education Region V (CHEDRO V) Quality Assurance Team conducted the Institutional Sustainability Assessment (ISA) Coaching Workshop on February 13-14, 2018 at the CNSC Social Hall, Main Campus, Daet, Camarines Norte.

ISA is a quality assurance process that assesses the institutional sustainability of a Higher Education Institution (HEI) in five Key Result Areas: governance and management, quality of teaching and learning; quality of professional exposure, research and creative work/innovation; support for students and relations with the community.

ISA aims to help HEIs develop a culture of quality. It is a moral and legal responsibility of every HEIs to provide

quality programs to its students and be efficient and effective through quality systems. Quality programs can be assessed through quality of students and graduates and quality systems can be assessed through tools that show the internal capacity of HEI to translate vision, policy and strategy into quality programs thus, produce quality results. The benefits of ISA to HEIs are continual improvement of the quality management system of the institution, an advantage in relation to vertical typology (SUC Levelling for SUCs) and provide institutions the opportunity for International Exposure Trips.

The coaching workshop covered discussion of CHED Memo No. 46, s. 2012, ISA Framework and ISA Self-Evaluation Documents (SED), accomplishment of

SED thru a Writeshop, comprehensive discussion of the ISA Process and the Role of CHEDRO in the process. The participants collaboratively accomplished the SED with their respective group, then presented their output to CHEDRO V Quality Assurance Team composed of Dr. Ma. Teresa G. De Alban, CEPS, Atty. Christian E. Rivero, Education Supervisor (ES) II, Dr. Jean Paulette Salalima-Go, ES II and Ms. Jean E. Cardino, ES II who deliberated and improved the presented outputs.

Among the many advantages of E-resources are: it is not a threat to traditional library resources but a solution to current problems by global libraries like deterioration of materials, lack of space for expansion and growing demands for its services to be readily available; it solves the problem of cost since most traditional resources come from different parts of the world and incur delivery costs; it does not depreciate; information is available 24/7 even holidays; it is cost effective because the volume of users decreases the marginal cost of the resources; it is modern and adapts to the current trends and it has no boundaries; and it can obtain resources from sources that are not physically adaptable or reachable.

A ceremonial cutting of ribbon was conducted by the College President Dr. Rusty G. Abanto, assisted by VP for Academic Affairs Dr. Erlinda J. Porcincula, Head Librarian Lea L.
